## **Principal Message**

Dear new Entrants:

It is a matter of great delight for me and my colleagues to welcome you in this prestigious institution. You have come here for a noble cause to seek knowledge. The significance to seek knowledge is even emphasized by Islam. Once we realize this, both teachers and the taught become significant in their respective roles. We need to understand these roles in our separate position as such with the sense of responsibility attached with them. This further enhances its scope by involving the role of our parents and community at large to check the situation. I would profess that we, as teachers, can perform our duties more diligently if our students show a genuine curiosity to know, believing that education is not a one way process. Your serious involvement in the process of getting education properly would help us explore and unfold your hidden potentialities in a better way, provided, you also realize your part of the duty at the same time. Let us therefore, set out on our journey, keeping in view the following guide lines which will unite us together for a good start.

- That we will follow the Motto of Quaid-e-Azam Muhammad Ali Jinnah:

### **UNITY, FAITH AND DISCIPLINE**

- That we will follow the College Motto:
- That we will care for the objectives for which we are here in the college.
- That we will avail our free time in taking part in healthy activities, and that we will avoid wasting our time.
- That we will take part in sports, along with your academic activities.
- That we will take part in co-curricular activities by joining societies/ subject societies.
- That we will hold the college flag high in our hands.
- That we are ready to take part in all the competitions along with other institutions with a sincere motive to win.
- That we will neither walk like a tortoise nor run like a hare but maintain a smooth pace like a human being in the race of life.
- That for us the purpose of getting higher education is to serve humanity at large.
- That we will abide by all the rules and regulations/terms and conditions whatsoever, which make us a bonafide students of this college.

These are only few lines which will remind you of the major purpose of your joining this college. Let us march forward hand in hand.

Let me avail this opportunity to take into account the other stake holders, too like parents and community. We all have a share in the responsibility of promoting the cause of education. Illiteracy has multifold ill effects on all walks of life. Let's fight out this evil by utilizing our maximum doings and uniting our strength into a joint struggle. Only then can we translate our dreams into reality. This is how we can brighten the careers of our coming generations. Let us sit together, for as long as possible, to evaluate and re-evaluate our gain in the struggle to do well. Let us not work out any further controversy to stain our academic environment. Let us pave the way for true consciousness.

May God Almighty bless you always.

**Prof. Muhammad Zahid Butt**

## **The Institution**

**Vision:** Govt. College of Science is imparting quality education to produce students of high quality in market oriented and traditional disciplines by creating an environment in which academic excellence can be combined with opportunity enabling individuals to meet the challenges of tomorrow and make their own future. The College is committed to be recognized as one of the best colleges of the Province, while emphasizing strong moral and ethical values.

**Mission Statement:** To impart, create and disseminate knowledge in stimulating and conducive learning atmosphere by providing them intellectual and technological tools necessary to meet the challenges of tomorrow.

Situated well away from the din of the city life and surrounded by tall and lush green shady trees, Govt. College of Science, Wahdat Road, Lahore is one of the first rank academic institutions of the Punjab. The institution has attained this status after 48 years of persistent efforts and prolonged struggle. The College, by its present name came into being on 8th August 1973, in compliance with the orders of the then Governor of the Punjab, after merging Government Superior Science College, Lahore and the Government Degree College, Wahdat Road, Lahore. At the same time the building which was constructed to house Govt. Intermediate College for Girls, Gulberg, and Lahore but remained unutilized, was also annexed to the College building and was named “Government College of Science, Wahdat Road, Lahore”. Thus Government College of Science emerged from the blend of these three institutions and a renowned educationist, Prof. M.A. Saeed, was appointed its first Principal. The new College started functioning with new vigour, ambitions and targets. The Post Graduate teaching was started in Physics (1970). Chemistry (1974), Economics, Mathematics (1994) and Zoology (2005).

At present the College has a vast campus where, in a disciplined and peaceful atmosphere, education is imparted in all the contemporary disciplines of Science and Arts. The College has a separate new block having Masters Classes in Mathematics and Economics and a newly constructed Commerce/Computer Block to accommodate the increasing number of students and to introduce other teaching disciplines in future. The pride of the college is a grand and multipurpose Hajvery Hall, perhaps the most commodious one in the Punjab to be utilized for curricular and co-curricular activities.

The College is affiliated with the Board of Intermediate & Secondary Education Lahore for intermediate classes and University of the Punjab Lahore for its BS 4 years Degree Program and Post Graduate Classes.

The College has a brilliant academic record in various exams of Punjab University. The result of postgraduate classes excels every year to that of the other colleges of the city. BS 4 years program was started in 2010 with the introduction of sixteen disciplines including English, Economics, Islamiyat, BBA, Chemistry, Statistics, Physics, Sociology, Botany, Zoology, Communication Studies, Mathematics, Information Technology, Political Science, Education and Urdu.

The College lays particular emphasis on literary, intellectual and scientific activities. Various opportunities are provided to the students for the development of their creative faculties and the enlightenment of their vision. For this purpose, different societies are functioning regularly. Dabistan, the literary journal of the College, is one of the celebrated college magazines of the Punjab. The special issues of the Magazine have been highly acclaimed by the literary and intellectual circles of the society. The College has also started publishing a monthly Gazette to basis to keep the students aware of the ongoing activities on the College.

While encouraging the intellectual and co-curricular activities, the spiritual aspects are also kept in view and there is a beautiful mosque for this purpose.

Sports are a characteristic feature of the College. In order to keep up its standard in this field, the College provides all the necessary facilities to its sportsmen. “The Rowers Crew” is particularly a source of pride for the College. The members of the team have been repeatedly participating in Asian Rowers Championships and they have won medals for their almamater and the motherland. They have an unbeatable track record of winning champions trophy of the Board for the last 28 years. The College won the Board Championship in Boxing during the year 2004-05 and to boost up the sports activity, a boxing ring is being set up in the College Campus.

Government College of Science believes to be committed in seriousness of purpose for providing an environment congenial to maintain excellent standards in quality education. The Institution has successfully emerged as one of the pioneer/ prestigious institutions of the province, having a remarkable impact rendering quality education within the prescribed government policies. The Institution provides marvelous and

meritorious educational facilities to its youth desirous of equipping themselves with higher education and professional skills and refining the potential of our human capital.

To our credit there is a long list of the names of the students who have won laurels in the realm of education, literature, arts, culture, science and technology. Thus the Institution is becoming an ever emerging source of inspiration and learning, providing an ideal atmosphere and focalizing emphasis on academic achievements. The commodious infrastructure with lush green grounds and rose beds enchant the students through its glamour and serene beauty. All such efforts of the management are aimed at providing an academic environment congenial to the students. But the sustained urge to struggle for the best and the sense of excellence is yet to be harvested. That is what the students of this Institution are always expected to keep in view.

**Hajvery Hall:**

Limited boarding facility is available for students residing outside the city of Lahore. The college does not guarantee the hostel boarding facility to the students admitted to this college. Admission in the hostel for First Year, Third year & Fifth Year is granted for one academic year only according to the rules mentioned in the hostel prospectus. To make atmosphere conducive to studies, merit is key to admission in hostel.

**Canteen:**

Canteen of the college serves the students as energy booster where edibles/ fast food and soft drinks are made available at rates settled by the college administration.

**Dispensary:**

College dispensary is being run under the supervision of a qualified dispenser. The services of a visiting medical officer can be utilized for medical advice.

**College Mosque:**

While encouraging the intellectual and co curricular activities, the spiritual aspects are also kept in view. Since mosques are considered centers of almost all religious activities in a Muslim society, therefore this secured task was accomplished and a beautiful mosque for this purpose was built which is now being further beautified to look more attractive. Five time prayer is offered. "Juma Sermon" is also delivered. All this is performed by an Imam of the Mosque appointed by the college administration.
