Fee Structure

Postgraduate, Graduate and Undergraduate Programmes

2017 - 2018

TUITION AND OTHER CHARGES

AKU charges fees for all of its programmes. Those responsible for a student's financial obligations should plan accordingly.

The University categorises students as 'residential' and 'non-residential'. Residential countries include Afghanistan, Burundi, Kenya, Pakistan, Rwanda, Tanzania and Uganda.

Candidates categorised as 'non-residential' are required to pay their dues in US dollars only. The University reviews its tuition and fees annually to cover inflation and other cost increases. Students are advised to plan their financial obligations for the course of study accordingly.

Candidates shall be categorised as 'non-residential' (whether holding Pakistani or dual citizenship), if the candidate meets any one or more of the following criteria:

- a) Residence of the principal wage earning member of the family; source of income during the previous three years;
- b) Whether the student was educated in AKU residential or non-residential countries during the three years prior to the application for admission;
- c) Whether the student is eligible for State-supported education overseas;
- d) Whether the candidate or principal earning member is reimbursed educational expenses by their employer.

Students holding Pakistani nationality, CNIC and/or passport should be aware that this does not guarantee an AKU residential classification for the payment of tuition fee and any other charges. The University's conditions stated above for the application of non-residential fee status will prevail.

If the candidate's parents are Pakistani citizens deputed to a government mission overseas, such students will be charged the fee prescribed for students in Pakistan. Documentary evidence will however, be required in such cases.

Candidates doubtful of their fee status should seek clarification from the Office of the Registrar before applying. The Registrar's decision on fee status shall be final and binding.

Successful candidates are required to pay the required instalment of the fee on acceptance to the programme and the balance over the year of study. Tuition and University fees may be paid in monthly instalments.

Students defaulting on payments within the due dates may be suspended and/or barred from classes and/or progression to the next year of study until the clearance of dues in accordance with the University's policies and procedures.

In cases where a student withdraws or is asked to withdraw from the University after commencement of a term, tuition for the entire term will be charged.

Payments may be made in cash at the Cashier's Counter within the Medical College from Monday to Friday between 9:00 am to 12:30 pm and 1:30 pm to 4:00 pm or by using any of the options provided under the "Mode of Payment" section. Personal cheques are not accepted.

UNIVERSITY FINANCIAL ASSISTANCE PROGRAMME

Admission into the University's academic programmes is based strictly on merit and on a needs-blind admission policy.

For students who are selected and are unable to pay for the cost of education, the University operates a needs-sensitive Financial Assistance Programme. Through this programme, the University extends financial support, to the extent possible, to students who secure admission to University programmes but are not able to pay tuition and other fees.

Financial assistance is offered on the basis of demonstrated need as evaluated by the University from data provided by the student, his/her family and other avenues that the University may deem appropriate. It is strongly recommended that every student desirous of receiving financial assistance from the University should thoroughly explore all other possible sources of assistance. Every student is required to make some contribution towards fees, living expenses and other costs so as not to totally depend on the University for Assistance. Financial assistance decisions are finalised and communicated to the students before the commencement of the academic session.

The continuation of financial assistance is conditional upon a yearly assessment of the financial needs of the student. Financial assistance is awarded as a combination of grant-in-aid and student loan depending on the socio economic profile of the student as assessed by the University. Students are not required to repay the grant-in-aid portion of the assistance awarded. The student loan portion of financial assistance is interest free with only an administrative charge of 5% per annum levied from the time of the award of the student loan. The loan portion of financial assistance becomes payable one or two years after graduation, depending on the programme.

For University graduates who continue to work or study at AKU after graduation, the University offers a 50% waiver of the loan amount payable in that particular year. The details of the policy are available on University's website.

The University also offers merit scholarships to students in their clinical years of the programme. Students in the top 15% of the class receive these scholarships; applications are not required for these scholarships.

Applications for financial assistance for students admitted to the 2017-2018 academic year will be acceptable by the date mentioned in the offer letter. Application forms are available online. These are also available from the Student Financial Assistance and Counselling Office.

Financial assistance is available for all AKU programmes except the Master in Health Professions Education programme.
