Question No.5 : Read the following paragraph carefully and answer the questions. Marks (12)

Electricity is an important blessing of science. It is a part of modern life. One cannot think of a world without it. Electricity has many uses in our daily life. It is used for lighting rooms. It is used for working fans. These things provide comfort to people. In factories, electricity is used. Electricity is used in schools and hospitals. It has changed transport and communication. Electricity also provides means of pleasure. The use of electricity is increasing day by day. Electricity can be produced by coal, gas and water. There is a shortage of electricity in our country. As responsible citizens, it is our duty to save electricity. Extra fans and lights should be switched off. We should turn off lights and fans before going outside. We should use energy savers instead of bulbs. The energy savers consume 80% less energy as compared to bulbs. So using energy savers is to our benefit.

- (a) Describe any two benefits of electricity mentioned in the paragraph. Marks (02)
- (b) Describe two ways of producing electricity. Marks (02)
- (c) How can we save electricity? Marks (02)
- (d) Bulbs or energy savers, which are better and why? Marks (02)
- (e) What is the central idea of the paragraph? Marks (02)
- (f) Suggest a suitable title for the paragraph. Marks (02)
