（Part－II）
（OBJECTIVE PART）
（INTERMEDIATE）
Marks ： 17
Time ：20Minutes
Note：－Write your Roll No．in space provided．Over writing，cutting，using of lead pencil will result in loss of marks．All questions are to be attempted．
1．Each question has four possible answers，Tick $(\sqrt{ })$ the correct answer．

|  | Normal distribution is |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | A Uni－modal | B | Bi－modal | C | Tri－modal | D | Multi－modal |
| 2 | The limits of the normal distribution are： |  |  |  |  |  |  |  |
|  |  | A 0 to $\infty$ | B | $-\infty$ to $\infty$ | C | －ooto 0 | D | 0 to 1 |
| 3 | The co－efficient of skewness of a normal distribution is |  |  |  |  |  |  |  |
|  |  | A｜Negative | B | positive | C | 3 | D | Zero |
| 4 | A value calculated from population is called |  |  |  |  |  |  |  |
|  |  | A Statistic | B | Mean | C | Parameter | D | Proportion |
| 5 | A complete list of elements in a population is called |  |  |  |  |  |  |  |
|  |  | A Population | ｜B | Sampling frame | C | Sampling design | D | Sampling unit |
| 6 | The standard error of the sample mean for $\sigma^{2}=16$ and $\mathrm{n}=4$ is |  |  |  |  |  |  |  |
|  |  | A 12 | B | 1 | C | 4 | D | 8 |
| 7 | A statistic $\hat{\theta}$ is said to be unbiased estimator of $\theta$ ，if |  |  |  |  |  |  |  |
|  | A | A $\mathrm{E}(\hat{\theta}) \neq \theta$ | ｜B | $\mathrm{E}(\hat{\theta})>\theta$ | C | $\mathrm{E}(\hat{\theta})=\theta$ | D | $\mathrm{E}(\hat{\theta})<\theta$ |
| 8 | The point estimate of $\mu$ is |  |  |  |  |  |  |  |
|  | A | － | B | $\sigma^{2}$ | C | $\mu$ | D | $\bar{\chi}$ |
| 9 | Which of the following cannot be null hypothesis |  |  |  |  |  |  |  |
|  | A | $\theta \neq \theta$ 。 | B | $\theta=\theta$ 。 | C | $\theta \geq \theta$ 。 | D | $\theta \leq \theta$ 。 |
| 10 | For a least squares trend line $\hat{y}=a+b x$ ，which one is true |  |  |  |  |  |  |  |
|  | A | ｜$\quad \Sigma y=\Sigma \hat{y}$ | B | $\Sigma \hat{y}=0$ | C | $\Sigma y>\sum \hat{y}$ | D | $\Sigma y<\sum \hat{y}$ |
| 11 | When $b_{y x}$ is positive，then $b_{x y}$ will be |  |  |  |  |  |  |  |
|  | A | ｜Negative | B | Zero | C | Positive | D | $>2$ |
| 12 | If two variables are perfectly pusitively correlated，then the value of＇ r ＇is |  |  |  |  |  |  |  |
|  | A | 0 | B | －1 | C | $>1$ | D | ＋1 |
| 13 | There are－－－－－parameters of Chi－square distribution |  |  |  |  |  |  |  |
|  | A | 2 | B | 1 | C | 4 | D | 3 |
| 14 | The co－efficient of association Q lies between |  |  |  |  |  |  |  |
|  | A | $-\infty$ oto $+\infty$ | B | $-\infty$ and +1 | C | 0 and +1 | D | －1 and＋1 |
| 5 | Increase in demand of ice cream in Summer is an example of |  |  |  |  |  |  |  |
|  | A | Seasonal variations | B | Trend | C | Cyclical variations | D | Irregular variations |
|  | A sudden decrease in supplies due to floods，is an example of |  |  |  |  |  |  |  |
|  | A | Secular trend | B | Seasonal variations | C | Irregular variations | D | Cyclical variations |
|  | A set of instructions that runs the computer |  |  |  |  |  |  |  |
|  | A | Software | B | Printers | C | Hardware | D | Monitors |

## Azad Jammu \& Kashmir Board Of Intermediate and Secondary Education, Mirpur

 Model paper A-202t,STATISTICS
(Part-II)
(INTERMEDIATE)
(SUBJECTIVE PART)

Marks : 68
Time : 2:40 Hours

Note:-Attempt any TWENTY TWO (22) short questions in all selecting eight from

$$
\begin{aligned}
& \text { Q. } 2 \text { and Q. } 3 \text { each and six from Q.4. } \\
& \qquad \begin{array}{l}
\text { SECTION }-1
\end{array}(22 \times 2=44)
\end{aligned}
$$

2- Write short answers of any eight questions.

| i | Describe the parameters of normal distribution | Ii | How much area of the normal distribution lies <br> between $\mu-\sigma$ and $\mu+\sigma$ |
| :--- | :--- | :--- | :--- |
| iii | In a normal distribution $\mu=25$ and $\sigma=5$ find <br> mean deviation | Iv | The first and third quartiles of a normal <br> distribution are 60 and 80 respectively, find $\mu$ |
| V | Why $\beta_{1}$ is zero in a normal distribution? | Vi | What is meant by statistical inference? |

3- Write short answers of any eight questions.
$(2 \times 8=16)$

| I | Define sampling error. | Ii | Given $\mathrm{N}=310, \mathrm{n}=100, \sigma=60$ find $\sigma_{\bar{x}}$, if <br> sampling is done without replacement. |
| :--- | :--- | :--- | :--- |
| Iii | Differentiate between probability and non <br> probability sampling. | Iv | Find $\mu_{\hat{p}}$ given that $\mathrm{n}=5$ and $\mathrm{P}=0.4$ |
| V | What is the purpose of sampling? | Vi | Define sampled population. |
| Vii | If $\mathrm{a}=30$ and $\mathrm{b}=2$ then estimate y for $\mathrm{x}=15$ | Viii | Describe at least any two properties of regression <br> co-efficient. |
| Ix | What is meant by dependent variable in <br> regression? | X | Find ' r ' if $b_{y x}=1.4$ and $b_{x y}=0.5$ |
| Xi | Interpret the meanings of ' r ' when $\mathrm{r}=+1$ and <br> $\mathrm{r}=-1$ | Xii | Distinguish between positive and negative <br> correlation. |

4- Write short answers of any six questions.
$(2 \times 6=12)$

| I | For two attributes $A$ and $B$, describe the <br> Yule's co-efficient of association. | Ii | Given that $(\mathrm{AB})=50,(\mathrm{~A})=120$ and $(\mathrm{B})=200$ find <br> the value of n, if the attributes A and B are <br> independent. |  |  |  |  |
| :--- | :--- | :--- | :--- | :---: | :---: | :---: | :---: |
| Iii | What is meant by positive association? | Iv | Define historigram. |  |  |  |  |
| V | What is difference between signal and noise? | Vi | Given that $\hat{y}=28+2 x$ and $x=-1,0,1$, find $\sum \hat{y}$ |  |  |  |  |
| Vii | Give an example of seasonal variations. | Viii | Describe the additive and multiplicative models in <br> time series. |  |  |  |  |
| Ix | What are moving averages? |  |  |  |  |  |  |

## SECTION-II

Note:- Attempt any three questions.
5- (a) In a normal distribution, variance is 4 . Find the first four moments about mean.
(b) The mean and standard deviation in a normal distribution are 30 and 10 respectively, find
(i) Mean Deviation.
(ii) Quartile Deviation
(iii) Median
(iv) Mode
