

Sir Syed CASE Institute of Technology, Islamabad

**Date Sheet Final Examinations Fall 2022**

**Graduate/Postgraduate Program**

**January 20 to 23, 2023**

| Day & Date                           | 09:00 - 12:00  | 01:00 - 04:00                                    |
|--------------------------------------|--|--|
| <b>Friday, 20<br/>January 2022</b>   | Advanced Computer Networks   | MEMs Design and Micromachining (02:30-05:30)     |
|                                      |  | Distributed Data Processing (02:30-05:30)        |
|                                      |  | Advanced Digital Signal Processing (02:30-05:30) |
| <b>Saturday, 21<br/>January 2022</b> | Reliability and Maintenance Management                             | Advanced Numerical Methods                       |
|                                      | Advanced Algorithm Analysis  | Total Quality Management                         |
| <b>Sunday, 22<br/>January 2022</b>   | Advanced Project Management  | Functional Analysis                              |
|                                      | Resource Optimization for Wireless Adhoc and 5 G Cellular Networks | Program and Portfolio Management                 |
|                                      | Block Chain Technologies   | Technology Management                            |
|                                      | Artificial Intelligence for Control Engineering.                   | Advanced Computer Architecture                   |
|                                      | Global Supply Chain Management                                     | Power System Steady State Analysis               |
| <b>Monday, 23<br/>January 2022</b>   | Software/IT Project Management                                     | Computer Application in Project Management       |
|                                      |  | Deep Learning                                    |
|                                      |  | Mathematical Techniques                          |
